It's All About Experience

As an experienced educator, I taught ninth and tenth grade English at Vergennes Union High School in Vermont and for more than 20 years I taught Computer classes at Columbia College Chicago.

I have owned my own publishing business and know the trials and tribulations of self-employment and running a business. I have a Masters Degree in Business Administration and know how to balance budgets.

I am the father of two lovely daughters. I know how the government affects family life from an inside perspective.

I am a home owner and know the burden of property taxes, home upkeep and the value of good neighborhoods.

I have served on a Chicago police/community liaison team and know the ups and downs of crime prevention and crime fighting.

Having run in five campaigns and being a

member of Northside Democracy For America, I know the ins and outs of politics and how to win a campaign. I have name recognition in our ward and served on the Roosevelt High School Local School Council.

Since last June I have contacted more than 4,000 households in our ward. I have listened carefully and know what you want and don't want, what you need and don't need. I am a person of and for the people, beholden to none except the voters in my ward.

I ask for your support and your vote. I promise to be an alderman worthy of the privilege you bestow on me.

You can contact me in any of these ways:
